Dear Valued Welded Tube of Canada Corp. customer,

Welded Tube of Canada Corp. is committed to providing excellence in product quality, service and ultimate value to a diversified customer base that meet environmental regulations, including RoHS Directive (2002/95/EC) and RoHS 2 Directive (2011/65/EU). All tubular products manufactured by Welded Tube is in compliance with the RoHS Directive, which limits the content of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE) flame retardants. Welded Tube is also in compliance with RoHS 2 Directive (2015/863) amended in 2017 which limits the content of Bis(2-Ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP).

The environmental regulations change constantly. We will try our best to keep you informed of changes that affect Welded Tube products by periodically updating this letter.

If you have any questions or need further clarification, please feel free to contact me.

We thank you for your continued support,

Blake Roussell  
Quality, Health & Safety, Environmental Manager
